E-Mail to Pager Information (this service is only available on alphanumeric / text pagers)

Your Pager e-mail address is:

@contactwireless.com
*(pager phone number including the area code - **no** dashes or spaces)*

Example: 5059691234@contactwireless.com

Any information that can be sent to an E-Mail address, can be sent directly to your pager. If your e-mail service is capable, you may also forward an alert that you have a new unread e-mail message waiting in your mailbox. You can also forward a copy or the full text of the e-mail message directly to your pager. We suggest that you only forward a copy of the message, that way a complete message will be saved in your e-mail in-box should you need to refer to it. Each pager has a distinct individual e-mail address, as shown above.
